Dear Parents,

We are happy to meet you through the *3rd* letter of the current academic year of our school.

1. EDITORIAL

The summer holidays are a break in the school academic year. It is the time when the kids are looking for something exciting, productive and positive to spend their holidays.

Even the parents are busy searching and thinking of the best activities in which their kids can indulge during summer holidays.

Watching TV the whole day long or just playing video games is not a good summer vacation idea so why not look for some really productive and constructive things which will keep the children engaged during summer.

Here are a few points to be considered.

- Wake up early in the morning
- Follow a fitness regime
- Indulge in new sports or games
- Study for few hours
- Try to learn something new
- Maintain good health and hygiene
- Join a book club
- Attend interesting and fun workshops
- Do some spring cleaning and get your house in order
- Keep at least 2-3 hours aside for studying, so that they do not get out of the habit of reading and writing.

This will also help them to complete their holiday homework on time, instead of keeping it piled up for the last days.
