Dear Parents,

We are happy to meet you through the 4th letter of the current academic year of our school.

1. EDITORIAL

The most useful asset of a person is not a head full of knowledge, but a heart full of love with ears open to listen and hands willing to help. This is how we can be mindful of others especially to our **CHILDREN** and specifically on these days when they need our emotional and positive support.

We need to foster a culture of resilience in them. Parents and teachers must recognize the "awesome" present in every child's behavior remembering that every positive word and action matters to our children. It will also help in enhancing the academic development and mental well-being of the students.
