3.HIGHLIGHTS OF NOVEMBER & DECEMBER, 2018

WORKSHOP ON- POSITIVE PARENTING: 25TH NOVEMBER, 2018

Amity International Pre School had organized a Positive Parenting workshop to train the parents in upbringing their children as a fully blossomed individual and the workshop was also intended to bring changes in the parent's attitude, behavioural patterns, language and the relationship among the spouses. This was conducted by the WORLD HEALING SOCIETY FOUNDATION, a NGO that works for promoting awareness for a green planet, animal protection, women empowerment, development of orphan and street children, self-growth, rescue and relief work during natural calamities.

The Positive Parenting Workshop was to enable the parents a clear understanding of themselves. We can't preach what we don't follow in our lives. The conviction can only come when we ourselves are a part of the solution and not the problem. Children are influenced by their parents the foremost. They have a greater role to play in shaping the child.

The session was designed by Dr. Archana Singh (Ph.D in Education) and was conducted by Dr. Arpita Chatterjee (Founder WHSF), Ms. Pushpita Chatterjee(General Secretary WHSF), Ms. Meenakshi Gour(Regional Director WHSF) and Ms.Tanushree Mandal(Healer WHSF).

The Guest Speaker for the workshop was Dr. Bina Thomas (Ex. Principal of Homeopathic Medical College, Vadodara.)

The key points on which the workshop was focused were: -

- 1) The myths and facts of parenting
- 2) The dynamics of Parenting
- 3) Core Skills for Parenting
- 4) Understanding yourself as a parent

All these points were covered with fun activities, role plays and interaction with the parents. The session aims at creating an abode for our children where in parents by being a part of their child's progress and development feel a sense of enrichment and empowered.

Her mission is to create an environment where young minds are nurtured to face the odds, strengthen their potential and develop themselves not only as the true citizens but also into leaders of Global Status through a holistic approach of learning.

The whole child is our focus. Learning and academic achievement form a significant part of the development of a loving, compassionate, healthy, and thoughtful world citizen. Our school, to a large extent, accomplishes this with a larger perspective of education. Our philosophy is of reducing pressure and retaining a student's hopes and self-esteem, without which education loses its purpose.

At our school, students are not competing with each other but with themselves by constantly raising their expectation and successfully achieving those targets. This makes them not only highly "individual driven" but also sensitive and empathetic to others', failures, a very important factor which shapes them into fine human beings

Our school carefully nurtures the tangible and the intangible strengths of each student, carefully preparing them to face challenges of a competitive world.

We trigger their curiosity and encourage them to step into unfamiliar grounds without fear. This gives a student an edge over their peers, as they are taught not to fear failure and that failure is an important step towards achievement.

We make learning an enjoyable experience that can never be forgotten but provides points of reference in one's future.
